Volunteer Manager Training & Mentoring Programme 2019

Volunteer West is a community organisation based in Altona that aims to improve the well-being of people and communities in Melbourne's West through volunteering. Since establishment in 2006, we have matched over 9,500 people with volunteering opportunities.

With funding provided by the **Victorian government**, Volunteer West is offering a **FREE** Training & Mentoring Program for Volunteer Managers from 24 small not-for-profit organisations based in Melbourne's Western Suburbs. This opportunity is for volunteer managers who are volunteers themselves or those that have very limited access to training.

Upon completion of the training, you will be able to:

1. Attract and retain more volunteers
2. Provide better supervision and support to your volunteers
3. Provide a more fulfilling experience to your invaluable volunteers

You will also receive Volunteer Management Training certification from Way2Go!

Wait! There's more!

After completing training, you will be allocated a **MENTOR to work with you for at least 2 months** to help you apply your knowledge to the specific needs of your organisation - put your learning into practice!
